1 Identification of substance	
Product details	
Trade name	6-Bromo-4-methylpyridine-3-boronic acid
Stock number:	H27069
Manufacturer/Supplier:	Alfa Aesar GmbH & Co.KG
	Benzstrasse 3 E-mail: gcat@matthey.com D-76185 Karlsruhe / Germany www.alfa-chemcat.com
Informing department:	Product safety department.
Emergency information:	Giftnotruf Universität Mainz / Poison Information Center Mainz www.giftinfo.uni-mainz.de Telefon:+49(0)6131/19240
2 Hazards identification	
Hazard designation:	Xi Irritant
Information pertaining to particular dangers for man and environment	R 36/37/38 Irritating to eyes, respiratory system and skin.
GHS label elements	$\wedge$
	Warning
	H315 - Causes skin irritation. H319 - Causes serious eye irritation.
	H335 - May cause respirátory irritation
Prevention: Response:	P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P302+P352 IF ON SKIN: Wash with plenty of soap and water.
···· <b>P</b> ·····	P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present
_	P302+P352 IF ON SKIN: Wash with plenty of soap and water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P321 Specific treatment (see on this label).
Storage: Disposal:	P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.
•	
3 Composition/information on ingredient Chemical characterization:	S
Designation: (CAS#)	6-Bromo-4-methylpyridine-3-boronic acid (CAS# ?): 100%
4 First aid measures	
After inhalation	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist
	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice.
After skin contact	Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice.
After eye contact After swallowing	Rinse opened eye for several minutes under running water. Then consult doctor. Seek immediate medical advice.
<b>U</b>	
5 Fire fighting measures	
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.
5 Fire fighting measures	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire:
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire:
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases:	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOx) Boron oxide
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire:
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment:	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOx) Boron oxide Wear self-contained breathing apparatus.
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment: 6 Accidental release measures	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOx) Boron oxide Wear self-contained breathing apparatus. Wear full protective suit.
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment: 6 Accidental release measures Person-related safety precautions:	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOX) Boron oxides (NOX) Wear self-contained breathing apparatus. Wear full protective suit.
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment: 6 Accidental release measures	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOX) Boron oxide Wear self-contained breathing apparatus. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Ensure adequate ventilation.
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment: 6 Accidental release measures Person-related safety precautions: Measures for environmental protection:	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOX) Boron oxide Wear self-contained breathing apparatus. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Ensure adequate ventilation.
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment: 6 Accidental release measures Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting:	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOX) Boron oxide Wear self-contained breathing apparatus. Wear full protective suit. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits.
5 Fire fighting measures Suitable extinguishing agents Special hazards caused by the material, its products of combustion or flue gases: Protective equipment: 6 Accidental release measures Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting:	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOX) Boron oxide Wear self-contained breathing apparatus. Wear full protective suit. Wear full protective suit. Wear full protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Ensure adequate ventilation. See Section 7 for information on safe handling See section 8 for information on personal protection equipment.

Can be released in case of fire: Carbon monoxide and carbon dioxide Hydrogen bromide (HBr) Nitrogen oxides (NOX) Boron oxide Wear self-contained breathing apparatus. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Ensure adequate ventilation on safe handling See Section 7 for information on safe handling See Section 7 for information on safe handling See Section 13 for information on disposal. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke. No special requirements. Store away from oxidizing agents. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Store in cool dry place brown conditions in well sealed containers. Store in cool dry conditions in well sealed containers. Store in cool dry conditions in well sealed containers.

Safety Data Sheet according to 1907/2006/EC, Article 31

Trade name 6-Bromo-4-methylpyridine-3-boronic acid			
(Contd. of page 1)			
Additional information:	No data	(Conta. or page 1)	
Personal protective equipment General protective and hygienic measures	The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work.		
Breathing equipment: Protection of hands: Material of gloves	Avoid contact with the eyes and skin. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks varies from manufacturer to manufacturer.	of quality and	
Penetration time of glove material Eye protection:	Impervious gloves Not determined Safety glasses Face protection		
Body protection:	Protective work clothing.		
9 Physical and chemical properties:			
General Information Form:	Powder		
Colour: Smell:	White Not determined		
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	162-165°C Not determined Not determined		
Flash point:	Not applicable		
Ignition temperature: Decomposition temperature:	Not determined Not determined		
Decomposition temperature: Danger of explosion:	Product is not explosive.		
Critical values for explosion: Lower:	Not determined		
Upper:	Not determined		
Steam pressure:	Not determined		
Density Solubility in / Miscibility with Water:	Not determined Insoluble		
10 Stability and reactivity Thermal decomposition / conditions to be avoided: Materials to be avoided: Dangerous reactions: Dangerous products of decomposition:	No decomposition if used and stored according to specifications. Oxidizing agents No dangerous reactions known Carbon monoxide and carbon dioxide Hydrogen bromide Nitrogen oxides (NOx) Boron oxide		
11 Toxicological information Acute toxicity: Primary irritant effect: on the skin: on the eye: Sensitization: Additional toxicological information:	Irritant for skin and mucous membranes. Irritant effect. No sensitizing effect known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. EPA-I: Data are inadequate for an assessment of human carcinogenic potential.		
12 Ecological information: Additional ecological information: General notes:	Generally not hazardous for water. Do not allow material to be released to the environment without proper governmental permits.		
13 Disposal considerations Product: Recommendation	Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal.		
Uncleaned packagings: Recommendation:	Disposal must be made according to official regulations.		
14 Transport information			
Land transport ADR/RID and GGVS/GGVE (c ADR/RID-GGVS/E Class:	cross-border/domestic) None		
Maritime transport IMDG/GGVSea: IMDG/GGVSea Class: Marine pollutant:	None No		
Air transport ICAO-TI and IATA-DGR: ICAO/IATA Class:	None		
	(	(Contd. on page 3) GB

Revision: 10.08.2010

	Revision. 10.06.20	
rade name 6-Bromo-4-methylpyridine-3-boronic acid		
	(Contd. of page	
Transport/Additional information:	Not dangerous according to the above specifications.	
5 Regulatory information		
Designation according to EC guidelines	X.	
Code letter and hazard designation of product:	Xi Irritant	
Risk phrases:	36/37/38 Irritating to eyes, respiratory system and skin.	
Safety phrases:	26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. 37 Wear suitable gloves.	
National regulations		
Information about limitation of use:	For use only by technically qualified individuals. Employment restrictions concerning young persons must be observed.	
Water hazard class:	Generally not hazardous for water.	
information to ensure proper use and prote conformance with this Material Safety Data	y as a supplement to other information gathered by them, and should make independent judgement of suitability of this ect the health and safety of employees.
