Safety Data Sheet according to 1907/2006/EC, Article 31		
Printing date 12.08.2010 Revision: 12.08.2010		
1 Identification of substance		
Product details Trade name	Methyl 3-(3-cyanophenyl)acrylate	
Stock number:	H50872	
Manufacturer/Supplier:	Alfa Aesar GmbH & Co.KG Benzstrasse 3 E-mail: gcat@matthey.com	
Informing department:	D-76185 Karlsruhe / Germany www.alfa-chemcat.com Product safety department.	
Emergency information:	Giftnotruf Universität Mainz / Poison Information Center Mainz www.giftinfo.uni-mainz.de Telefon:+49(0)6131/19240	
2 Hazards identification		
Hazard designation:		
Ū	Xn Harmful	
Information pertaining to particular dangers for man and environment	R 22 Harmful if swallowed.	
GHS label elements	R 36/37/38 Irritating to eyes, respiratory system and skin.	
	Warning	
	H302 - Harmful if swallowed. H315 - Causes skin irritation.	
	H319 - Causes serious eye irritation. H335 - May cause respiratory irritation	
Prevention: Response:	P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P302+P352 IF ON SKIN: Wash with plenty of soap and water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if	
	present and easy to do. Continue rinsing.	
Storage:	P321 Specific treatment (see on this label). P405 Store locked up.	
Disposal:	P501 Dispose of contents/container in accordance with local/regional/national/international regulations.	
3 Composition/information on ingredients		
Chemical characterization: Designation: (CAS#)	Methyl 3-(3-cyanophenyl)acrylate (CAS# ?): 100%	
4 First aid measures		
After inhalation	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms	
After akin contact	persist. Seek immediate medical advice.	
After skin contact	Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact After swallowing	Rinse opened eye for several minutes under running water. Then consult doctor. Seek immediate medical advice.	
5 Fire fighting measures		
Suitable extinguishing agents Special hazards caused by the material, its	CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.	
products of combustion or flue gases:	Can be released in case of fire: Carbon monoxide and carbon dioxide	
	Nitrogen oxides (NOx)	
Protective equipment:	Hydrŏgen cyanide (HĆN) Wear self-contained breathing apparatus. Wear full protective suit.	
6 Accidental release measures	· · · · · · · · · · · · · · · · · · ·	
Person-related safety precautions:	Wear protective equipment. Keep unprotected persons away.	
Measures for environmental protection:	Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Dispose of contaminated material as waste according to item 13.	
Measures for cleaning/collecting:	Ensure adequate ventilation	
Additional information:	See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal.	
	See Section 13 for information on disposal.	
7 Handling and storage Handling		
Information for safe handling:	Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace.	
Information about protection against	Ensure good ventilation/exhaustion at the workplace.	
explosions and fires:	Keep ignition sources away - Do not smoke.	
Storage Requirements to be met by storerooms and		
containers: Information about storage in one common	No special requirements.	
storage facility: Further information about storage	Store away from oxidizing agents.	
conditions:	Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
8 Exposure controls and personal protection		
Additional information about design of		
technical systems:	Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Components with critical values that require monitoring at the workplace:	Not required.	
Additional information:	No data	
Personal protective equipment General protective and hygienic measures	The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food.	
	(Contd. on page 2) GB

Melting point/Melting range:       N.         Boiling point/Boiling range:       N.         Sublimation temperature / start:       N.         Flash point:       N.         Ignition temperature:       N.         Decomposition temperature:       N.         Danger of explosion:       Pr         Critical values for explosion:       N.	lot determined lot determined lot applicable lot determined lot determined Product is not explosive.
Ignition temperature:     N       Decomposition temperature:     N       Danger of explosion:     P       Critical values for explosion:     P	lot determined lot determined Product is not explosive.
Decomposition temperature: N Danger of explosion: P Critical values for explosion:	lot determined Product is not explosive.
Critical values for explosion:	
	lot determined lot determined
Steam pressure: N	lot determined
Density N	lot determined
Materials to be avoided:       O         Dangerous reactions:       N         Dangerous products of decomposition:       C         N       N	lo decomposition if used and stored according to specifications. Dxidizing agents lo dangerous reactions known Carbon monoxide and carbon dioxide litrogen oxides (NOx) lydrogen cyanide (prussic acid)
on the eye: Iri Sensitization: N Additional toxicological information: To N	ritant for skin and mucous membranes. ritant effect. lo sensitizing effect known. o the best of our knowledge the acute and chronic toxicity of this substance is not fully known. lo classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA r ACGIH.
12 Ecological information: Additional ecological information: General notes: D	Vater hazard class 1 (Self-assessment): slightly hazardous for water. To not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. To not allow material to be released to the environment without proper governmental permits.
M	Consult state, local or national regulations for proper disposal. land over to disposers of hazardous waste. Just be specially treated under adherence to official regulations.
Uncleaned packagings: Recommendation: D	Disposal must be made according to official regulations.
14 Transport information Land transport ADR/RID and GGVS/GGVE (cros ADR/RID-GGVS/E Class: N	ss-border/domestic)
ADR/RID-G'GVS/E Class: N Maritime transport IMDG/GGVSea:	lone
IMDG/GGVSea Class: N Marine pollutant: N	lone lo
Air transport ICAO-TI and IATA-DGR: ICAO/IATA Class: N	lone
Transport/Additional information: N	lot dangerous according to the above specifications.
15 Regulatory information Designation according to EC guidelines: Code letter and hazard designation of product:	Xn Harmful
Risk phrases: 22 36	2 Harmful if swallowed. 6/37/38 Irritating to eyes, respiratory system and skin. (Contd. on page 3) GB

Revision: 12.08.2010		
Trade name Methyl 3-(3-cyanophenyl)acrylate		
(Contd. of page 2) 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.		
36/37 Wear suitable protective clothing and gloves.		
For use only by technically qualified individuals. Employment restrictions concerning young persons must be observed.		
Water hazard class 1 (Self-assessment): slightly hazardous for water.		
16 Other information: Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
