Printing date 20.08.2010		according to 1907/2006/EC, Article 31		
		Revision: 20.08.2010		
1 Identification of substance				
Product details				
Trade name	1,9-Nonanedithiol			
Stock number:				
Manufacturer/Supplier:	Alfa Aesar GmbH & Co.KG Benzstrasse 3	E-mail: gcat@matthey.com		
	D-76185 Karlsruhe / Germany	www.alfa-chemcat.com		
Informing department: Emergency information:	Product safety department. Giftnotruf Universität Mainz / Poison Information Center Mainz			
	www.giftinfo.uni-mainz.de Telefon:+49(0)6131/19240			
2 Hazards identification				
Hazard designation:				
-	Xn Harmful			
Information pertaining to particular dangers				
for man and environment	R 21/22 Harmful in contact with skin and if swallowed. R 36/38 Irritating to eyes and skin.			
GHS label elements				
	Warning			
	H302 - Harmful if swallowed. H312 - Harmful in contact with skin.			
	H315 - Causes skin irritation.			
Prevention:	H319 - Causes serious eye irritation. P280 Wear protective gloves/protective clothing/eye protection/face protect	ion.		
Response:	P302+P352 IF ON SKIN: Wash with plenty of soap and water. P305+P351+P338 IF IN FYES: Rinse cautiously with water for several minu	ites. Remove contact lenses, if		
	present and easy to do. Continue rinsing.			
	P302+P352 IF ON SKIN: Wash with plenty of soap and water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minu present and easy to do. Continue rinsing. P321 Specific treatment (see on this label). P322 Specific measures (see on this label).			
Disposal:	P501 Dispose of contents/container in accordance with local/regional/nation	nal/international regulations.		
3 Composition/information on ingredien	ts			
Chemical characterization:				
Designation: (CAS#) Identification number(s):	1,9-Nonanedithiol (CAS# 3489-28-9): 100%			
EINECS Number:	222-482-3			
4 First aid measures				
After inhalation	Supply fresh air. If required, provide artificial respiration. Keep patient warm	. Consult doctor if symptoms		
	persist. Seek immediate medical advice.			
After skin contact	Instantly wash with water and soap and rinse thoroughly.			
After eye contact	Seek immediate medical advice. Kinse opened eye for several minutes under running water. Then consult do	octor.		
After swallowing	Seek immediate medical advice.			
5 Fire fighting measures				
Suitable extinguishing agents	CO2, extinguishing powder or water jet. Fight larger fires with water jet or al	lcohol-resistant foam.		
Special hazards caused by the material, its products of combustion or flue gases:	Can be released in case of fire:			
P	Carbon monoxide and carbon dioxide Sulphur oxides (SOx)			
Protocilian construction	Hydrogen sulphide Wear self-contained breathing apparatus.			
Protective equipment:	Wear self-contained breatning apparatus. Wear full protective suit.			
C Assidental valesse messures				
6 Accidental release measures	Wear protective equipment. Keep upprotected persons away			
Person-related safety precautions:	Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation			
Person-related safety precautions: Measures for environmental protection:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal	ernmental permits. binders, sawdust)		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling:	Ensure adequate vertilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See Section 13 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and containers:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke. No special requirements. Store away from air.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and containers: Information about storage in one common storage facility: Further information about storage	Ensure adequate vertilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See Section 13 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke. No special requirements. Store away from air. Store away from air.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and containers: Information about storage in one common storage facility:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke. No special requirements. Store away from air. Store away from oxidizing agents. Store under dry inert gas.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and containers: Information about storage in one common storage facility: Further information about storage	Ensure adequate vertilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See Section 13 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke. No special requirements. Store away from air. Store away from air. Store under dry inert gas. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	ernmental permits. binders, sawdust).		
Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting: Additional information: 7 Handling and storage Handling Information for safe handling: Information about protection against explosions and fires: Storage Requirements to be met by storerooms and containers: Information about storage in one common storage facility: Further information about storage conditions:	Ensure adequate ventilation Do not allow material to be released to the environment without proper gove Absorb with liquid-binding material (sand, diatomite, acid binders, universal Dispose of contaminated material as waste according to item 13. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal. Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke. No special requirements. Store away from air. Store away from air. Store under dry inert gas. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. This product is air sensitive.	ernmental permits. binders, sawdust).

This product is air sensitive. Ction Properly operating chemical fume hood designed for hazardous chemicals a of at least 100 feet per minute.	binders, sawdust).		

Revision: 20.08.2010

1 mining date 20.00.2010	Novision: 20.00.2010
Trade name 1,9-Nonanedithiol	
	(Contd. of page 1)
Additional information:	No data
Personal protective equipment General protective and hygienic measures	The usual precautionary measures should be adhered to in handling the chemicals.
	Keep away from foodstuffs, beverages and food.
	The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin.
Breathing equipment:	Avoid contact with the eyes and skin. Use breathing protection with high concentrations.
Breathing equipment: Protection of hands: Material of gloves	Check protective gloves prior to each use for their proper condition.
Material of gloves	Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
Penetration time of glove material	Impervious gloves Not determined
Eye protection:	Safety glasses
Body protection:	Face protection Protective work clothing.
9 Physical and chemical properties:	
General Information	
Form: Colour:	Liquid Colourless
	Pale yellow
Smell:	Stench
Change in condition Melting point/Melting range:	Not determined
Boiling point/Boiling range: Sublimation temperature / start:	351-352°C Not determined
Flash point:	> 100°C
Ignition temperature:	Not determined
Decomposition temperature:	Not determined
Danger of explosion:	Product is not explosive.
Critical values for explosion: Lower:	Not determined
Upper:	Not determined Not determined
Steam pressure:	Not determined
Density at 20°C	0.953 g/cm ³
Solubility in / Miscibility with Water:	Not miscible or difficult to mix
Water.	
10 Stability and reactivity	
Thermal decomposition / conditions to be	
avoided: Materials to be avoided:	No decomposition if used and stored according to specifications. Air
Dangerous reactions:	Öxidizing agents No dangerous reactions known
Dangerous products of decomposition:	Carbon monoxide and carbon dioxide
	Sulphur oxides (SOx) Hydrogen sulphide
11 Toxicological information	
Acute toxicity:	
Primary irritant effect: on the skin:	Irritant for skin and mucous membranes.
on the eye:	Irritant effect.
Sensitization: Additional toxicological information:	No sensitizing effect known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
	Danger by skin resorption. No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA
	or ACGIH.
12 Ecological information:	
Additional ecological information:	
General notes:	Water hazard class 1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.
	Do not allow material to be released to the environment without proper governmental permits.
13 Disposal considerations	
Product:	
Recommendation	Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations.
	Consult state, local or national regulations for proper disposal.
Uncleaned packagings: Recommendation:	Disposal must be made according to official regulations.
14 Transport information Land transport ADR/RID and GGVS/GGVE (cross-border/domestic)
ADR/RID-GGVS/E Class:	None
Maritime transport IMDG/GGVSea: IMDG/GGVSea Class: Marine pollutant:	None No
Air transport ICAO-TI and IATA-DGR: ICAO/IATA Class:	None
Transport/Additional information:	Not dangerous according to the above specifications.
	GB-J (Contd. on page 3)

(Contd. on page 3)

Trade name 1,9-Nonanedithiol

Revision: 20.08.2010

Page 3/3

15 Regulatory information Designation according to EC guidelines: Code letter and hazard designation of product:	Xn Harmful
Risk phrases:	21/22 Harmful in contact with skin and if swallowed. 36/38 Irritating to eyes and skin.
Safety phrases:	26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. 36/37 Wear suitable protective clothing and gloves.
National regulations	
Information about limitation of use:	Employment restrictions concerning young persons must be observed. For use only by technically qualified individuals.
Water hazard class:	Water hazard class 1 (Self-assessment): slightly hazardous for water.
16 Other information: Employers should use this information only a this information to ensure proper use and pro not in conformance with this Material Safety	as a supplement to other information gathered by them, and should make independent judgement of suitability of otect the health and safety of employees. This information is furnished without warranty, and any use of the product Data Sheet, or in combination with any other product or process, is the responsibility of the user.
