|---|---|--------------------------|
| according to 1907/2006/EC, Article 31<br>Printing date 21.07.2010 Revision: 21.07.2010                  |   |                          |
| 1 Identification of substance   |   |                          |
| Product details<br>Trade name   | D-Valine  |                          |
| Stock number:   | A18894, L06988  |                          |
| Manufacturer/Supplier:  | Alfa Aesar GmbH & Co.KG<br>Benzstrasse 3 E-i  | mail: gcat@matthey.com   |
| Informing department:   | D-76185 Karlsruhe / Germany<br>Product safety department.   | www.alfa-chemcat.com     |
| Emergency information:  | Giftnotruf Universität Mainz / Poison Information Center Mainz<br>www.giftinfo.uni-mainz.de Telefon:+49(0)6131/19240  |                          |
| 2 Hazards identification  |   |                          |
| Hazard designation:<br>Information pertaining to particular dangers<br>for man and environment          | void<br>Not applicable  |                          |
| GHS label elements  | Void  |                          |
| 3 Composition/information on ingredients  |   |                          |
| Chemical characterization:<br>Designation: (CAS#)<br>Identification number(s):                          | D-2-Amino-3-methylbutyric acid (CAS# 640-68-6): 100%  |                          |
| EINECS Number:  | 211-368-9   |                          |
| 4 First aid measures  |   |                          |
| After inhalation  | Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult do persist.<br>Seek immediate medical advice.   | octor it symptoms        |
| After skin contact  | Instantly wash with water and soap and rinse thoroughly.<br>Seek immediate medical advice.  |                          |
| After eye contact<br>After swallowing   | Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment.  |                          |
| 5 Fire fighting measures  |   |                          |
| Suitable extinguishing agents<br>Special hazards caused by the material, its                            | CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resist   | ant foam.                |
| products of combustion or flue gases:   | Can be released in case of fire:<br>Carbon monoxide and carbon dioxide  |                          |
| Protective equipment:   | Nitrogen oxides (NOx)<br>Wear self-contained breathing apparatus.<br>Wear full protective suit.   |                          |
| 6 Accidental release measures   |   |                          |
| Person-related safety precautions:<br>Measures for environmental protection:                            | Wear protective equipment. Keep unprotected persons away.<br>Ensure adequate ventilation<br>Do not allow material to be released to the environment without proper governmental p | ormito                   |
| Measures for cleaning/collecting:<br>Additional information:  | Collect mechanically.<br>See Section 7 for information on safe handling   |                          |
|   | See Section 8 for information on personal protection equipment.<br>See Section 13 for information on disposal.  |                          |
| 7 Handling and storage  |   |                          |
| Handling<br>Information for safe handling:  | Keep containers tightly sealed.<br>Store in cool, dry place in tightly closed containers.   |                          |
|   | Store in cool, dry placé in tightly closed containers.<br>No special precautions necessary if used correctly.   |                          |
| Information about protection against<br>explosions and fires:   | Keep ignition sources away - Do not smoke.  |                          |
| Storage<br>Requirements to be met by storerooms and<br>containers:                                      | No special requirements.  |                          |
| Information about storage in one common storage facility:   | Store away from oxidizing agents.   |                          |
| Further information about storage conditions:   | Keep container tightly sealed.  |                          |
|   | Store in cool, dry conditions in well sealed containers.  |                          |
| 8 Exposure controls and personal protect<br>Additional information about design of                      | tion  |                          |
| technical systems:  | Properly operating chemical fume hood designed for hazardous chemicals and having a of at least 100 feet per minute.  | an average face velocity |
| Components with critical values that require<br>monitoring at the workplace:<br>Additional information: | Not required.<br>No data  |                          |
| Personal protective equipment<br>General protective and hygienic measures                               | The usual precautionary measures should be adhered to in handling the chemicals.  |                          |
|   | Keep away from foodstuffs, beverages and food.<br>Instantly remove any soiled and impregnated garments.<br>Wash hands during breaks and at the end of the work.                   |                          |
| Breathing equipment:<br>Protection of hands:  | Use breathing protection with high concentrations.<br>Check protective gloves prior to each use for their proper condition.   |                          |
| Material of gloves  | The selection of the suitable gloves does not only depend on the material, but also on f<br>and varies from manufacturer to manufacturer.   | urther marks of quality  |
| Eye protection:<br>Body protection:   | Safety glasses<br>Protective work clothing.   |                          |
| 9 Physical and chemical properties:   |   |                          |
| General Information<br>Form:  | Powder  |                          |
| Colour:   | White   | (Contd. on page 2)       |

(Contd. on page 2)

## Safety Data Sheet according to 1907/2006/EC, Article 31

Printing date 21.07.2010

| Printing date 21.07.2010  | Revision: 21.07.2010   |
|---|--|
| Trade name <i>D-Valine</i>  |  |
|   | (Contd. of page 1)   |
| Smell:  | Not determined   |
| Change in condition<br>Melting point/Melting range:<br>Boiling point/Boiling range:<br>Sublimation temperature / start:   | >295°C (subl)<br>Not determined<br>Not determined  |
| Flash point:  | Not applicable   |
| Ignition temperature:   | Not determined   |
| Decomposition temperature:  | Not determined   |
| Danger of explosion:  | Product is not explosive.  |
| Critical values for explosion:<br>Lower:<br>Upper:  | Not determined<br>Not determined   |
| Steam pressure:   | Not determined   |
| Density   | Not determined   |
| 10 Stability and reactivity<br>Thermal decomposition / conditions to be<br>avoided:<br>Materials to be avoided:<br>Dangerous reactions:<br>Dangerous products of decomposition:   | No decomposition if used and stored according to specifications.<br>Oxidizing agents<br>No dangerous reactions known<br>Carbon monoxide and carbon dioxide<br>Nitrogen oxides (NOx)  |
| 11 Toxicological information<br>Acute toxicity:<br>Primary irritant effect:<br>on the skin:<br>on the eye:<br>Sensitization:<br>Additional toxicological information:   | May cause irritation<br>May cause irritation<br>No sensitizing effect known.<br>To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.<br>No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA<br>or ACGIH.  |
| 12 Ecological information:<br>Additional ecological information:<br>General notes:  | Water hazard class 1 (Self-assessment): slightly hazardous for water.<br>Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.<br>Do not allow material to be released to the environment without proper governmental permits.  |
| 13 Disposal considerations  |  |
| Product:<br>Recommendation  | Consult state, local or national regulations for proper disposal.<br>Hand over to disposers of hazardous waste.<br>Must be specially treated under adherence to official regulations.  |
| Uncleaned packagings:<br>Recommendation:  | Disposal must be made according to official regulations.   |
| 14 Transport information  |  |
| Land transport ADR/RID and GGVS/GGVE (cr<br>ADR/RID-GGVS/E Class:   | r <b>oss-border/domestic)</b><br>None  |
| Maritime transport IMDG/GGVSea:<br>IMDG/GGVSea Class:<br>Marine pollutant:  | None<br>No   |
| Air transport ICAO-TI and IATA-DGR:<br>ICAO/IATA Class:   | None   |
| Transport/Additional information:   | Not dangerous according to the above specifications.   |
| 15 Regulatory information<br>Designation according to EC guidelines:<br>National regulations  | Observe the normal safety regulations when handling chemicals<br>The product is not subject to identification regulations under EC Directives and the Ordinance on Hazardous<br>Materials (GefStoffV).   |
| National regulations<br>Information about limitation of use:<br>Water hazard class:   | For use only by technically qualified individuals.<br>Water hazard class 1 (Self-assessment): slightly hazardous for water.  |
| Other regulations, limitations and prohibitive regulations  | e Although this chemical may sometimes be used as a food or drug or cosmetic, our products are not approved  |
|   | or suitable for such use or for human consumption.   |
| 16 Other information:<br>Employers should use this information only as a<br>this information to ensure proper use and protec<br>not in conformance with this Material Safety Data<br>Department issuing data specification sheet: | a supplement to other information gathered by them, and should make independent judgement of suitability of<br>ct the health and safety of employees. This information is furnished without warranty, and any use of the product<br>ta Sheet, or in combination with any other product or process, is the responsibility of the user.  |
