Further information about storage conditions: Store in cool, dry conditions in well sealed containers. 8 Exposure controls and personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Components with critical values that require monitoring at the workplace: Not required.	Protective equipment: 6 Accidental release measures Person-related safety precautions: Measures for environmental protection:	Can be released in case of fire: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen fluoride (HF) Hydrogen cyanide (HCN) Wear self-contained breathing apparatus. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits.
Handling Information for safe handling: Keep containers tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Storage Requirements to be met by storerooms and containers: Keep ignition sources away - Do not smoke. Information about storage in one common storage facility: No special requirements. Further information about storage conditions: Store away from oxidizing agents. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Store away from oxidizing agents. <i>Requirements</i> : Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Components with critical values that require monitoring at the workplace: Not required.	products of combustion or flue gases: Protective equipment: 6 Accidental release measures Person-related safety precautions: Measures for environmental protection: Measures for cleaning/collecting:	Can be released in case of fire: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen fluoride (HF) Hydrogen cyanide (HCN) Wear self-contained breathing apparatus. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits.

Store in cool, dry conditions in well sealed containers. tion Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Printing date 11.08.2010

Revision: 11.08.2010

Additional information:	No data (Contd. of page 1
Personal protective equipment	No data
General protective and hygienic measures	The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments.
	Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin.
Breathing equipment: Protection of hands:	Use breathing protection with high concentrations.
Protection of hands: Material of gloves	Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and
Penetration time of glove material	varies from manufacturer to manufacturer. Impervious gloves Not determined
Eye protection:	Safety glasses Face protection
Body protection:	Protective work clothing.
9 Physical and chemical properties:	
General Information	Solid.
Form: Smell:	Not determined
Change in condition Melting point/Melting range:	Not determined
Boiling point/Boiling range:	Not determined
Sublimation temperature / start: Flash point:	Not determined Not applicable
Ignition temperature:	Not determined
Decomposition temperature:	Not determined
Danger of explosion:	Product is not explosive.
Critical values for explosion: Lower: Upper:	Not determined Not determined
Steam pressure:	Not determined
Density	Not determined
Thermal decomposition / conditions to be avoided: Materials to be avoided: Dangerous reactions: Dangerous products of decomposition:	No decomposition if used and stored according to specifications. Oxidizing agents No dangerous reactions known Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen fluoride Hydrogen cyanide (prussic acid)
11 Toxicological information	
Acute toxicity:	
Primary irritant effect: on the skin:	Irritant for skin and mucous membranes.
on the eye:	Irritant effect.
Sensitization: Additional toxicological information:	No sensitizing effect known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
12 Ecological information:	
Additional ecological information: General notes:	Water hazard class 1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. Do not allow material to be released to the environment without proper governmental permits.
13 Disposal considerations	
Product:	
Recommendation	Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal.
Uncleaned packagings: Recommendation:	Disposal must be made according to official regulations.
14 Transport information	
Land transport ADR/RID and GGVS/GGVE (
ADR/RID-GGVS/E Class: Maritime transport IMDG/GGVSea:	None
IMDG/GGVSea Class: Marine pollutant:	None No
Air transport ICAO-TI and IATA-DGR: ICAO/IATA Class:	None

Revision: 11.08.2010

Trade name 5-Fluoro-2-methoxybenzan	nide
	(Contd. of page 2
Transport/Additional information:	Not dangerous according to the above specifications.
15 Regulatory information	
Designation according to EC guidelines:	
Code letter and hazard designation of product:	Xi Irritant
Risk phrases:	36/37/38 Irritating to eyes, respiratory system and skin.
Safety phrases:	26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. 37 Wear suitable gloves.
National regulations	
Information about limitation of use:	For use only by technically qualified individuals. Employment restrictions concerning young persons must be observed.
Water hazard class:	Water hazard class 1 (Self-assessment): slightly hazardous for water.
16 Other information: Employers should use this information only as information to ensure proper use and protect to conformance with this Material Safety Data SI	s a supplement to other information gathered by them, and should make independent judgement of suitability of this the health and safety of employees. This information is furnished without warranty, and any use of the product not in heet, or in combination with any other product or process, is the responsibility of the user.
