1 Identification of substance	
Product details Trade name	2,3-Dichlorothiophene-5-sulfonyl chloride
Stock number:	L11780
Manufacturer/Supplier:	Alfa Aesar GmbH & Co.KG Benzstrasse 3 D-76185 Karlsruhe / Germany E-mail: gcat@matthey.com www.alfa-chemcat.com
Informing department: Emergency information:	Product safety department. Giftnotruf Universität Mainz / Poison Information Center Mainz www.giftinfo.uni-mainz.de Telefon:+49(0)6131/19240
2 Hazards identification	
Hazard designation:	C Corrosive
Information pertaining to particular dangers for man and environment GHS label elements	R 34 Causes burns.
Prevention: Response:	H314 - Causes severe skin burns and eye damage.         P280 Wear protective gloves/protective clothing/eye protection/face protection.         P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.         P309       IF exposed or if you feel unwell:         P310       Immediately call a POISON CENTER or doctor/physician.
3 Composition/information on ingredients	s
Chemical characterization: Designation: (CAS#)	2,3-Dichlorothiophene-5-sulfonyl chloride (CAS# 126714-85- 0)
4 First aid measures	
General information After inhalation	Instantly remove any clothing soiled by the product. Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.
After skin contact	Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advices
After eye contact After swallowing	Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek immediate medical advice.
5 Fire fighting measures	
Suitable extinguishing agents For safety reasons unsuitable extinguishing	CO2, sand, extinguishing powder. Do not use water.
agents Special hazards caused by the material, its	Water.
products of combustion or flue gases:	Can be released in case of fire: Carbon monoxide and carbon dioxide
Protective equipment:	Hydrogen chloride (HCI) Sulphur oxides (SOx) Wear self-contained breathing apparatus. Wear full protective suit.
6 Accidental release measures	
Person-related safety precautions:	Wear protective equipment. Keep unprotected persons away.
Measures for environmental protection:	Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits.
Measures for cleaning/collecting:	Use neutralizing agent. Dispose of contaminated material as waste according to item 13.
Additional information:	Ensure adequate ventilation. See Section 7 for information on safe handling See section 8 for information on personal protection equipment. See Section 13 for information on disposal.
7 Handling and storage	
Handling Information for safe handling:	Handle under dry protective gas. Keep containers tightly sealed. Store in cool, dry place in tightly closed containers.
Information about protection against explosions and fires:	Ensure good ventilation/exhaustion at the workplace. Keep ignition sources away - Do not smoke.
Storage Requirements to be met by storerooms and containers: Information about storage in one common	No special requirements.
storage facility:	Store away from water. Store away from oxidizing agents. Store away from strong bases.
Further information about storage conditions:	Store under dry inert gas.
	This product is moisture sensitive. Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Protect from humidity and keep away from water. Store in a locked cabinet or with access restricted to technical experts or their assistants.
8 Exposure controls and personal protect	· · · · · · · · · · · · · · · · · · ·
Additional information about design of technical systems:	Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.
Components with critical values that require monitoring at the workplace:	•

Revision: 22.08.2010

Trade name 2,3-Dichlorothiophene-5-sulfonyl chloride

## (Contd. of page 1) Additional information: No data Personal protective equipment General protective and hygienic measures The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. Impervious gloves Breathing equipment: Protection of hands: Material of gloves Penetration time of glove material Not determined Safety glasses Tightly sealed safety glasses. Face protection Full face protection Protective work clothing. Eye protection: **Body protection:** 9 Physical and chemical properties: **General Information** Form: Crystalline powder White Colour: Light brown Not determined Smell: Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: 54-57°C Not determined Not determined Flash point: Not applicable Ignition temperature: Not determined Decomposition temperature: Not determined Danger of explosion: Product is not explosive. Critical values for explosion: Lower: Upper: Not determined Not determined Steam pressure: Not determined Density Not determined Solubility in / Miscibility with Water: Reacts 10 Stability and reactivity Thermal decomposition / conditions to be avoided: Materials to be avoided: No decomposition if used and stored according to specifications. Water/moisture Oxidizing agents Bases Dangerous reactions: Dangerous products of decomposition: No dangerous reactions known Carbon monoxide and carbon dioxide Hydrogen chloride (HCl) Sulphur oxides (SOx) 11 Toxicological information Acute toxicity: Primary irritant effect: on the skin: Corrosive effect on skin and mucous membranes. Strong corrosive effect. No sensitizing effect known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach. No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA on the eye: Sensitization: Additional toxicological information: or ACGIH. 12 Ecological information: Additional ecological information: General notes: Water hazard class 1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. Do not allow material to be released to the environment without proper governmental permits. 13 Disposal considerations Product: Recommendation Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations. 14 Transport information Land transport ADR/RID and GGVS/GGVE (cross-border/domestic) 8 (C4) Corrosive substances. ADR/RID-GGVS/E Class: Kemler Number:
