ts
2-(5-Nitro-2-pyridyloxy)ethanol (CAS# 143071-39-0): 100%
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms
persist.
Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly.
Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor.
Seek medical treatment.
CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.
Can be released in case of fire: Carbon monoxide and carbon dioxide
Nitrogen oxides (NOx)
Wear self-contained breathing apparatus. Wear full protective suit.
Week protoctive equipment Keep upprotected a second survey
Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
Do not allow material to be released to the environment without proper governmental permits.
Collect mechanically. See Section 7 for information on safe handling
See section 8 for information on personal protection equipment. See Section 13 for information on disposal.
Keep containers tightly sealed.
Store in cool, dry place in tightly closed containers.
No special precautions necessary if used correctly.
Keep ignition sources away - Do not smoke.
No special requirements.
Store away from oxidizing agents.
Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.
ction
ction Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocit
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocit of at least 100 feet per minute.
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocit of at least 100 feet per minute.
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. P Not required. No data
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. P Not required. No data
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Not required. No data The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments.
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Not required. No data The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work.
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Not required. No data The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition.
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Not required. No data The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Revision: 21.08.2010

Printing date 21.08.2010	Revision: 21.08.2010
Trade name 2-(5-Nitro-2-pyridyloxy)ethal	nol
Smell:	(Contd. of page 1)
Change in condition	Not determined
Melting point/Melting range:	112-114℃
Boiling point/Boiling range:	Not determined
Sublimation temperature / start:	Not determined
Flash point:	Not applicable
Ignition temperature:	Not determined
Decomposition temperature:	Not determined
Danger of explosion:	Product is not explosive.
Critical values for explosion:	Not determined
Lower: Upper:	Not determined
Steam pressure:	Not determined
Density	Not determined
10 Stability and reactivity	
Thermal decomposition / conditions to be	
avoided:	No decomposition if used and stored according to specifications.
Materials to be avoided:	Oxidizing agents
Dangerous reactions: Dangerous products of decomposition:	No dangerous reactions known Carbon monoxide and carbon dioxide
	Nitrogen oxides (NOx)
11 Toxicological information	
-	
Acute toxicity: Primary irritant effect:	
on the skin:	May cause irritation
on the eye: Sensitization:	May cause irritation No sensitizing effect known.
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
-	No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
12 Ecological information:	
Additional ecological information:	
General notes:	Water hazard class 1 (Self-assessment): slightly hazardous for water.
	Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. Do not allow material to be released to the environment without proper governmental permits.
	Be not allow matching to be released to the environment without proper governmental permits.
13 Disposal considerations	
Product:	
Recommendation	Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations
	Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal.
Uncleaned packagings:	
Recommendation:	Disposal must be made according to official regulations.
14 Transport information	
-	cross-border/domestic)
Land transport ADR/RID and GGVS/GGVE ( ADR/RID-GGVS/E Class:	None
Maritime transport IMDG/GGVSea:	
IMDG/GGVSea Class:	None No
Marine pollutant:	
Air transport ICAO-TI and IATA-DGR: ICAO/IATA Class:	None
Transport/Additional information:	Not dangerous according to the above specifications.
15 Regulatory information	
Designation according to EC guidelines:	Observe the normal safety regulations when handling chemicals
	The product is not subject to identification regulations under EC Directives and the Ordinance on Hazardous
	The product is not subject to identification regulations under EC Directives and the Ordinance on Hazardous Materials (GefStoffV).
National regulations	Materials (GefStoffV).
