Protection of first-aiders:	A rescuer should wear personal protective equipment, such as rubber gloves and air- tight goggles.
5. FIRE-FIGHTING MEASURES Suitable extinguishing media: Extinguishing media not to be used: Specific methods: Special protective equipment for firefighters:	 B Dry chemical, foam, carbon dioxide. Water (It may scatter and spread fire.) Fire-extinguishing work is done from the windward and the suitable fire-extinguishing method according to the surrounding situation is used. Uninvolved persons should evacuate to a safe place. In case of fire in the surroundings: Keep containers cool by spraying with water. Eliminate all ignition sources if safe to do so. When extinguishing fire, be sure to wear personal protective equipment.
6. ACCIDENTAL RELEASE ME Personal precautions, protective equipment and emergency procedures: Environmental precautions Methods and materials for containment and cleaning up: Prevention of secondary hazards:	 EASURES Use personal protective equipment. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc. S: Prevent product from entering drains. Absorb spilled material in dry sand or inert absorbent before recovering it into an airtight container. In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations. Remove all sources of ignition. Fire-extinguishing devices should be prepared in case of a fire. Use spark-proof tools and explosion-proof equipment.
